## Science Knowledge and Skills Progression

National Curriculum Aims	
EYFS	<p><b>ELG: Understanding the World around us (The Natural World)</b></p> <ul style="list-style-type: none"><li>• Explore the natural world around them, making observations and drawing pictures of animals and plants.</li><li>• Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class.</li><li>• Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.</li></ul>
KS1&2	<p><b>The national curriculum for design and technology aims to ensure that all pupils:</b></p> <ul style="list-style-type: none"><li>• Develop scientific knowledge and conceptual understanding through the specific disciplines of biology, chemistry and physics.</li><li>• Develop understanding of the nature, processes and methods of science through different types of science enquiries that help them to answer scientific questions about the world around them.</li><li>• Are equipped with the scientific knowledge required to understand the uses and implications of science, today and for the future.</li></ul>
